has successfully completed the online Specialization

Beginner: Figma UI / UX Design Essentials

This Specialization is intended for beginners and aspiring designers seeking to develop foundational UI/UX skills using Figma. Through three hands-on courses, you will cover wireframing, layout design, reusable components, prototyping, and developer handoff—building skills across the full design workflow. These courses will prepare you to confidently create user-centered digital interfaces and collaborate effectively on real-world design projects.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
